

## CONTENTS

Definitions, Abbreviations and Checklists .....	13
Chapter One: The Flight Instructor .....	23
The role of the flight instructor .....	25
Instructor development .....	26
Chapter Two: The Recreational Student Pilot .....	29
Motivations .....	30
Industry fit .....	30
Pilot demographics .....	31
Medical requirements .....	32
Weight and ergonomics .....	32
Training schedules .....	33
Learning in the age of electronic media .....	34
Chapter Three: Choosing An Instructor Candidate .....	37
Recommended traits for an Instructor .....	39
Considerations for upgrade to Senior Instructor .....	40
Chapter Four: Principles and Methods of Instruction (PMI) .....	45
Introduction .....	47
The trainer .....	47
Learning .....	48
Learning factors .....	48
<i>Readiness</i> .....	49
<i>Primacy</i> .....	52
<i>Relationship</i> .....	53
<i>Exercise</i> .....	55
<i>Intensity</i> .....	57
<i>Effect</i> .....	58
<i>Recency</i> .....	60

## CONTENTS

Oral Questions .....	61
<i>Purpose of oral questions</i> .....	61
<i>Desired qualities of good oral questions</i> .....	62
<i>Handling student answers</i> .....	64
The Demonstration Performance Method of Teaching .....	67
<i>General</i> .....	67
<i>Explanation and demonstration</i> .....	68
<i>Student performance and Instructor supervision</i> .....	69
<i>Evaluation</i> .....	70
<i>Rules for using the demonstration performance method</i> .....	70
<i>Preparing a lesson plan</i> .....	72
Developmental Teaching or Teaching by Questioning .....	83
Student Progress .....	85
<i>Rates of learning</i> .....	81
<i>Advances and plateaus</i> .....	81
<i>Personality differences</i> .....	87
<i>Emotions</i> .....	87
<i>Degrees of emotion</i> .....	88
<i>The effect of strong emotional tension</i> .....	88
<i>Use of emotional escape mechanisms</i> .....	89
<i>Meeting the differences</i> .....	89
Student traits and how to address them (table) .....	91
The Student-Instructor .....	93
Fault Analysis .....	97
<i>Characteristics of effective fault analysis</i> .....	98
Preparatory Ground Instruction- Long Briefing .....	101
Pre-Flight Briefing .....	103
In-Flight Instruction .....	105
Control of aircraft .....	105
In-flight teaching .....	106
Fault analysis .....	107
Planning of flight instruction .....	107
Post-Flight Debriefing .....	109
Flight Safety .....	111
A Checklist For Good Instruction .....	113
Principles and Methods of Instruction .....	115

## CONTENTS

Chapter Five: A Guide To Practical Flight Instruction .....	119
Introduction .....	121
<i>Flight syllabus sequence</i> .....	122
<i>Determining competency</i> .....	122
<i>Cross-referencing competency</i> .....	123
<i>Definitions</i> .....	123
<i>Further guidance material</i> .....	124
<i>Flight tolerances (table)</i> .....	124
<i>Training outside the briefed lesson</i> .....	126
Tips for the Instructor- Making the Flight Relevant to the Student .....	127
<i>In-flight briefing</i> .....	128
<i>Student self-patter</i> .....	130
<i>Further tips for the Instructor</i> .....	130
<i>Teaching to aircraft type and location</i> .....	131
<i>Prompting information</i> .....	132
<i>Reassurance and relaxing</i> .....	133
Recommended Core Content for Flights .....	135
<i>Taxiing</i> .....	135
<i>Objective</i> .....	137
<i>Considerations</i> .....	137
The Flights .....	
<i>Effects of Controls - Recommended Briefing Structure</i> .....	147
<i>Air exercise</i> .....	148
<i>Effects of Controls - Briefing Considerations</i> .....	148
<i>Effects Of Controls - In-Flight Patter</i> .....	152
 <i>Straight and Level - Recommended Briefing Structure</i> .....	161
<i>Straight and Level - Briefing Considerations</i> .....	162
<i>Straight and Level - In-Flight Patter</i> .....	163
 <i>Climbing and Descending - Recommended Briefing Structure</i> .....	173
<i>Climbing and Descending - Briefing Considerations</i> .....	174
<i>Climbing And Descending - In-Flight Patter</i> .....	175

## CONTENTS

<i>Turns - Recommended Briefing Structure .....</i>	183
<i>Turns - Briefing Considerations .....</i>	184
<i>Turns - In-Flight Patter .....</i>	186
<i>Stalling - Recommended Briefing Structure .....</i>	193
<i>Stalling - Briefing Considerations .....</i>	194
<i>Stalling - In-Flight Patter .....</i>	198
<i>Circuits - Recommended Briefing Structure .....</i>	205
<i>Circuits - Briefing Considerations .....</i>	207
<i>Crosswind Circuits .....</i>	213
Chapter Six: Creating A Lesson Plan .....	219
Airmanship elements common to every lesson .....	220
<i>Lookout .....</i>	220
<i>Managing control of the aircraft .....</i>	220
<i>Situational awareness .....</i>	221
<i>The clockcode .....</i>	222
Standard ground briefing template .....	223
<i>What every student needs from their instructor .....</i>	225
Delivery of content and the why .....	225
Q&A time .....	226
Separate theory lessons from flights .....	227
Young mind vs mature mind .....	227
Syllabus instruction guide .....	230
Chapter Seven: Common Student & Instructor Faults .....	237
Relevant and consistent language .....	238
Too much patter .....	238
Inconsistency of training at school .....	239
Common Instructor faults .....	239
Common student faults .....	241

## CONTENTS

Chapter Eight: Administrative Requirements .....	245
General requirements .....	246
The debrief .....	247
Understanding basic student training requirements .....	247
Risks of flying .....	247
Requirements for CFIs .....	248
Requirements for Senior Instructors .....	250
Requirements for Instructors .....	251
Medical requirements .....	252
Instructor renewals .....	252
 Chapter Nine: Appendices	
Appendix 1: Test Questions 1-52 .....	255
Appendix 2: Requirements Reference Table .....	283
Appendix 3: Training Sequences .....	287
Appendix 4: Generic Instructor Training Record .....	291
Appendix 5: 3 Axis Briefings .....	295
Appendix 6: Weightshift Briefings .....	307
