

## **SECTION 10.1 AIRCRAFT WEIGHT AND BALANCE (W&B)**

### **10.1.1 INTRODUCTION**

The requirements of CAO 100.7 apply to all RAAus registered aircraft.

Subsection 1(c) of CAO 100.7 will apply to RAAus registered aircraft when procedures are accepted or approved by CASA for the aircraft.

### **10.1.2 FORMS**

TECH FORM 006 WEIGHT & BALANCE REPORT – FIXED WING AIRCRAFT must be supplied with all new aircraft registration applications, and where aircraft have been modified or repaired and a re-weigh has become necessary.

### **10.1.3 VERIFICATION**

The HAM may require for any aircraft at any point in time, to have its empty weight verified, at the aircraft's normal location, or otherwise as agreed. This may be required where doubt exists as to the accuracy of a declared weight, or as part of a random survey of aircraft. RAAus will bear the cost of any such verification. Aircraft owners will be afforded due notice and should work with the HAM to arrange a suitable time and place.

The HAM will liaise with a suitable person to conduct the weighing activity.
